Affected Products

This Hotfix can be applied to the SP2 versions of Autodesk AutoCAD 2015, Autodesk AutoCAD LT® 2015, and Autodesk AutoCAD 2015-based verticals.

Issues Resolved by This Update

This Hotfix addresses the following issue:

- The intersection osnap does not work inside hatch patterns.

Installation Instructions

You must have administrative privileges on your Microsoft® Windows® operating system to complete the installation process.

This installation requires you to replace the following file:

- *acdb20.dll*

Download the Hotfix for your application to a location on your local computer:

- For 32-bit operating systems:
AutoCAD_2015_SP2_Hatch_Intersection_Osnap_Hotfix_32bit.zip
- For 64-bit operating systems:
AutoCAD_2015_SP2_Hatch_Intersection_Osnap_Hotfix_64bit.zip

Double click the zip file and extract the resulting file to a location on your computer, e.g. *C:\Temp*.

To Replace the File

1. Close all software applications.
2. Navigate to your product installation folder; for example *C:\Program Files\Autodesk\AutoCAD 2015*.
3. In the product installation folder, right-click on the file listed below, select Properties, and go to the Details tab. Replace the file (following steps 4 and 5) only if the version is lower than the one listed below.
 - *acdb20.dll*: 20.0.210.15
4. In the product installation folder, right-click on and rename the original file (e.g. *acdb20.dll* to *acdb20.bak*).
5. Move the newly downloaded file from *C:\Temp* to this folder.

Note

You will need to `_REGEN` (or `_REGENALL`) the drawing, after changing `OSOPTIONS`, in order to turn snapping to hatches on or off.

To Uninstall This Hotfix

1. Delete the file that you downloaded and installed.
2. Restore the backed-up file by renaming it (e.g. *acdb20.bak* to *acdb20.dll*).
