Affected Products

This Hotfix applies to the shipping versions of Autodesk AutoCAD 2016 and Autodesk AutoCAD 2016-based vertical products.

Issues Resolved by This Update

This Hotfix addresses a compatibility problem with signed VLX files containing DCL dialogs.

Installation Instructions

You must have administrative privileges on your Microsoft® Windows® operating system to complete the installation process.

This installation requires you to replace the following file:

- *vl.crx*

Download the Hotfix for your application to a location on your local computer:

- For 32-bit operating systems:
VLX_Hotfix_for_AutoCAD_2016_32bit.zip
- For 64-bit operating systems:
VLX_Hotfix_for_AutoCAD_2016_64bit.zip

Double click the zip file and extract the resulting file to a location on your computer, e.g. *C:\Temp*.

To Replace the vl.crx file

1. Close all software applications.
2. Navigate to your product installation folder; for example *C:\Program Files\Autodesk\AutoCAD 2016*.
3. In the product installation folder, right-click on the file listed below, select Properties, and go to the Details tab. Replace the file (following steps 4 and 5) only if the version is lower than the one listed below.
 - *vl.crx*: 20.1.49.2
4. In the product installation folder, right-click on the existing *vl.crx* file and rename it to *vl.bak*.
5. Move the newly downloaded *vl.crx* file from *C:\Temp* to this folder.

To Uninstall This Hotfix

1. Delete the file that you downloaded and installed.
2. Restore *vl.bak* to *vl.crx*.
